– Worked with Git and GitHub for version control and project

Core Java Intern
Odisha Computer Application Centre, Bhubaneswar
Mar 2023 – Apr 2023 (60 Days)

– Experience developing Java applications in NetBeans IDE

PROJECTS

🔗 E-COMMERCE WEBSITE

– Developed a full-featured e-commerce platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
– Implemented user authentication, product management, shopping cart functionality, secure payment integration (Stripe), and an intuitive admin dashboard for order and inventory management.
– Utilized Redux for state management and deployed the application on a cloud platform (Vercel/Render).
– Live Demo: https://amazon-frontend-noob.netlify.app/

🔗 Todo List Platform

– Developed a task management application using [Tech Stack: React, Node.js, MongoDB].
– Implemented CRUD operations to add, delete, and mark tasks as complete.
– Designed a user-friendly UI.
– Integrated authentication (JWT) for secure access.
– Deployed the app using [Vercel/Render] for real-world accessibility.
– Live Demo: https://todolist-platform.netlify.app/
